

## Roadmap Intel 2010?

**LINK (<https://www.nexthardware.com/news/processor-chipset/1902/roadmap-intel-2010.htm>)**

Ci è giunta in redazione e ve la sottoponiamo un'immagine con la nuova Roadmap Intel per il 2010

Secondo alcune indiscrezioni quella in basso sarà la nuova Roadmap dei processori Intel segmento desktop per il 2010, che prevede ben 6 nuovi processori al lancio:

- Core i7-930
- Core i7-970
- Core i7-980X Extreme Edition
- Core i5-680
- Core i7-880
- Core i3-550
- Pentium E6700

| Processor Number                | Base Frequency (GHz) | QPI Speed (GT/s) | Total Cache | Cores / Threads | Memory Speed Support (DDR3 only) | Intel® Turbo Boost Technology | Maximum Single-core turbo frequency (GHz) | Integrated Graphics Frequency (MHz) | Intel® Clear Video HD Technology | Integrated Memory Controller | TDP (W) | FMB | Intel® vPro™ Technology | Intel® SEP Technology | Intel® vRST Technology | Intel Technologies |             |            |        |           | Socket | Processor Generation |                 |
|---------------------------------|----------------------|------------------|-------------|-----------------|----------------------------------|-------------------------------|-------------------------------------------|-------------------------------------|----------------------------------|------------------------------|---------|-----|-------------------------|-----------------------|------------------------|--------------------|-------------|------------|--------|-----------|--------|----------------------|-----------------|
|                                 |                      |                  |             |                 |                                  |                               |                                           |                                     |                                  |                              |         |     |                         |                       |                        | Intel® VT-x        | Intel® VT-d | Intel® TXT | AES-NI | Load-Free |        |                      | Hyper-Threading |
