Nuovo driver fix per AMD

Da molto si invocava l'uscita di driver appositamente creati da AMD per Crysis. Il giorno dopo il lancio della serie HD3000 eccoli.

Crysis hotfix includes the following

- *DirectX 10: Fixes texture flickering in bushes, clouds, trees*
- *DirectX 10: Performance improvements*
- *DirectX 9: Fixes Anti-Aliasing corruption seen on the ATI Radeon 2900 Series*
- *DirectX 9: Anti-Aliasing performance enhancements*
- *DirectX 9: Crossfire performance improvements*
- *DirectX 9: Fixes random graphics corruption during game play*
