AMD ha reso disponibili per il download i nuovi driver Catalyst, giunti ora alla versione 12.10, che includono piccoli miglioramenti senza, tuttavia, apportare alcun cambiamento dal punto di vista prestazionale.

Il contemporaneo rilascio dei↔ Catalyst 12.11 beta sarà invece molto apprezzato dai videogiocatori visto che introducono numerose ottimizzazioni per le schede Radeon HD 7000 aumentandone le prestazioni nei titoli più recenti.

I nuovi driver AMD Catalyst 12.10 e 12.11 Beta sono scaricabili ai seguenti link:
