

MSI annuncia i BIOS con supporto a Kaby Lake

LINK (<https://www.nexthardware.com/news/schede-madri/7747/msi-annuncia-i-bios-con-supporto-a-kaby-lake.htm>)

Pubblicata la lista delle schede madri compatibili con i relativi download.

MSI ha annunciato che tutte le attuali schede madri dotate di chipset serie 100 supportano pienamente le imminenti CPU Intel Core di settima generazione.

Tale supporto viene introdotto tramite l'aggiornamento del BIOS il cui download è già disponibile sul [sito ufficiale \(https://www.msi.com/support/\)](https://www.msi.com/support/) MSI.
