AMD pubblica i Crimson ReLive Edition 17.6.2

AMD

Disponibile una seconda versione dei driver ottimizzati per DiRT 4.

AMD ha appena rilasciato i Radeon Software Crimson ReLive Edition 17.6.2 che introducono incrementi prestazionali con il gioco DiRT 4 utilizzando impostazione 8x per il Multi Sampling Anti Aliasing (MSAA).

Non manca la consueta lista dei bug noti ancora da risolvere, che verranno presumibilmente corretti a nelle prossime revisioni.

Di seguito sono riportate le principali note fornite con i driver.

Fixed Issues

- Performance in DiRT4 when using 8xMSAA is lower than expected with the latest game build.

Known Issues

- Graphical corruption may be experienced in Tom Clancy's: Rainbow Six Siege when MSAA is enabled.
- Adobe Lightroom may experience an application crash with GPU acceleration enabled on Windows 7 system configurations using Radeon RX 390 Series graphics products.
- A small amount of apps may experience issues with Borderless Fullscreen mode and AMD FreeSync technology if other applications or game launchers are running on the primary screen in the background.
- Counter-Strike: Global Offensive and World of Warcraft may experience flickering or performance issues the first time the game is launched on a system boot with AMD FreeSync technology enabled. Workarounds include exiting and restarting the application or task switching (alt+tab) in and out of the game to fix the issue.

Known Issues for Radeon ReLive

- The XBOX DVR application may cause conflicts with Radeon ReLive, users are suggested to disable XBOX DVR if Radeon ReLive is experiencing issues.
- Radeon ReLive may fail to install on AMD APU Family products or experience a system hang or failure to record when using the recording feature on AMD APU Family products.
- Radeon ReLive may intermittently fail to work after performing task switches of applications. A work around is to disable and then enable the feature in Radeon Software.
- Radeon ReLive may exhibit corruption in recordings when capturing Microsoft Office applications.
- Radeon ReLive may experience recording or streaming issues when task switching using ALT+TAB.
