Supporto a Core i7 per il partner NVIDIA

Lo storico partner NVIDIA ha presentato la propria scheda madre basata sul chipset Intel X58. In questo modo garantirà il supporto SLI anche sulle piattaforme Core i7.

X58i MOTHERBOARD
Groundbreaking, Earth Shattering, Mind-Blowing
First, the XFX X58i Motherboard launches the XFX Intel® enthusiast chipset motherboard. As part of its ongoing efforts to ensure that its customers receive the best product options available, XFX has integrated state-of-the-art Intel® technology. This motherboard is the first to support the Intel Core i7 processor using the Intel Nehalem architecture. Additionally, the XFX X58i is the first motherboard to support either NVIDIA 3-Way SLI or ATI CrossFireX, which allows two or more discrete graphics cards to work together to improve system performance and creating a substantial visual gaming experience. Also featuring Intel® Hyper-Threading Technology, Intel® Turbo Boost Technology, Intel® Quick Path Interconnect (QPI), making the XFX X58i Motherboard truly unique and amazingly agile.

XFX X58i Motherboard
KEY FEATURES:

- Up to 6.4 GT/s QPI
- Supports Intel® i7M processor
- PCI Express 3.0 slots
- Supports 3-Way SLI and Crossfire
- Supports up to 12 GB of DDR3-1333 Memory
- Premium 8-Channel High Definition Audio
- Dual Gigabit Ethernet
- Rear Panel eSATA ports
- Rear Panel Clear CMOS Button
- Debug LED
- Dual BIOS
- Intel® Turbo Boost Technology
- Intel® Hyper-Threading Technology
- Intel® Matrix Storage Technology
- Intel® Quick Path Interconnect (QPI)
- Vista Certified

3 PCI-E 3.0 slots
6 SATA 3.0 ports
2 Gigabit LAN ports
12 DDR3.0 DIMM slots
2 e-SATA
